</div>

It is my great pleasure in presenting this report of the national seminar on cultural & language interface under the banner of "Azadi Ka Amrit Mahotsav".

I thank each & all who made the expert talk on cultural & language interface, Azadi Ka Amrit Mahotsav, poster presentation, folk song & translation competition and presentation & discussion on the need, importance & guidance on these topics for enhancing knowledge and creating interest for developing knowledge& skills among future students.

Azadi Ka Amrit Mahotsav is an initiative of the Government of India to celebrate and commemorate 75 years of independence & the glorious history of its people, culture and achievements.

This Mahotsav is dedicated to the people of India who have not only been instrumental in bringing India thus far in its evolutionary journey but also hold within them the power and potential to enable Prime Minister Narendra Modi's vision. The official journey of Azadi Ka Amrit Mahotsav commenced on 12th March 2021 which started a 75-week countdown to our 75th anniversary of independence and will end post a year on 15th August 2023. We are in 55th week of celebration. Ours is a little effort to celebrate the programme in order to inculcate the patriotic feelings and to bring awareness about the programme.

The theme anchors our commemoration initiatives under Azadi Ka Amrit Mahotsav. Poster making competition, folk song competitions and competitions on translation of proverbs into different languages along with expert talk on cultural and language importance in Azadi Ka Amrit Mahotsav are the subtheme of our seminar.

As a result of discussions on all the above theme and presentations on it an emotional environment created about the belonging ness to our country and the knowledge about the similarity of folk songs of all states and proverbs in different state languages develops a feeling of unity in diversity.

We appreciate the efforts of one and all to make the programme success. We conclude that languages and cultures does not create any gaps rather build bridges.

"Understanding languages and other cultures build bridges".
